

Strategic Goals

2017-2022

Perspective/Strategic Plans and deployment

As part of the 5 years plan made in 2017 it was decided that college should start a centre for Image Processing. It was planned that the college should have 100% faculty with Ph.D. It was also decided that there is a need to promote research activities on larger scale in terms of Research Projects, Research Facilities, Publications and more number of IPR Workshops. It was planned to encourage faculty to write research projects for which funds may be provided by the funding agencies. It was decided that the student strength should be increased to 2000. It was planned to establish Incubation centre in the area of Costume Design and Fashion. It was also decided to start EDC(Entrepreneurship Development Cell) in the college. It was planned to create an ICT-Based Infrastructure.

Thirty class rooms, 1 seminar hall, 1 conference room and an auditorium are equipped with LCD Projectors. Among them, Swayam Prabha DTH channels are installed in 10 classrooms and 1 seminar hall. The entire campus is enabled with Wi-Fi. As many as 1043 students have enrolled in various online courses offered by Swayam. Dissemination of knowledge and creation of working group has been implemented through National and State level seminars. Gymnasium is built with modern Gym equipments and is available to all students to improve health and keep fit. Societal engagement is carried out by all the departments. Some noteworthy activities are regular visit to orphanage, Educating the Government school children once in a week, Computer Literacy to homemakers, and participation in SWACHH BHARAT Mission, Adoption of one child through World Vision India, Awareness to the public on Plastic avoidance, energy conservation, to avoid open defecation and the like. Tally Certificate course was introduced to the students. A National Conference on IPR (Intellectual Property Rights) was organized.
